Errata

Research for *The Nature of the Beasts* was possible thanks to the generosity of a great many people and institutions. I have done my best to outline those debts in the acknowledgements, notes, and bibliography in the text. All errors are my own, of course, and in the years since publication several oversights and mistakes have come to my attention thanks to readers and colleagues. I have done my best to list those here. This is an active document. I welcome further notes and corrections. I can be reached at ian_miller@harvard.edu.

p. 267 n. 7: note should read:

p. 271 ns. 54 and 55: all listings of "Personal diary" should be corrected to *Jitsuroku*.

p. 286: "Fukuda, Saburō, *Personal Diary*. Tokyo Zoological Society, 1942." This should be listed as "Fukuda, Saburō, *Personal Diary*. Tokyo Zoological Park Society, 1942." It should be moved out of the "Published Primary Sources in English and Japanese" section and into "Unpublished Primary Sources."
